## Technical Skills

---

**Languages:** C, C++, Python, Java, JavaScript, TypeScript, Lua, VBA, Bash, PowerShell

**Frameworks:** Node.js, React, Django, Flask, Tailwind, Bootstrap

**Databases:** MongoDB, SQL, MySQL, PostgreSQL, SQLite

**Others:** HTML, Sass, CSS, Markdown, Git, GitHub, GNU/Linux, Postman, Figma, Vercel, Vim/Nvim

## Experience

---

### Adaqua

Dec 2024 – Present

*Software Engineer & UI/UX Designer*

*Kolkata, India*

- Engineered dynamic QR code generation with consumer data tracking before redirection to client ads.
- Built and maintained consumer/client-facing Next.js platforms.
- Created sleek UI prototypes and flows using Figma.
- Designed the architecture of the full-stack application & optimized user flows.
- Communicated with clients & users to gather requirements and deliver user-centric, scalable solutions.

*Tech: Next.js, Tailwind, MongoDB, Prisma, Figma*

### Rethink School

Oct 2022 – May 2023

*Content Creator, Illustrator & Social Media Manager*

*Kolkata, India*

- Created educational and marketing content using Figma, Canva, and PowerPoint.
- Designed workshop content on Design Thinking and Entrepreneurship.
- Led seminars, webinars, and sessions promoting creativity and innovation.
- Managed brand presence across social platforms.

*Tools: Figma, Canva, Notion, MS Excel, MS Powerpoint, MS Word*

## Projects

---

### Event-Buddy

event-buddy-2.vercel.app

*Tech: Next.js, Tailwind, Flask, Streamlit, Telegram API, Discord Webhooks, Cloudflare AI*

2024

- Modern event platform with AI-generated posters and real-time social integration.
- Telegram bot using Streamlit + Python SDK for real-time organizer updates.
- Flask backend with endpoints for event broadcasting via Discord webhooks.
- UI design and assets built using Figma.

### Invoice-Maker

makeyourinvoice.vercel.app

*Tech: Next.js, Express, MongoDB, PDFKit, QRCode, Nodemailer*

2024

- PDF and CSV invoice generation with QR-based payment links.
- Automated invoice emailing and real-time transaction tracking.
- Autofill functionality for bulk invoice creation.
- Designed UI/UX flows using Figma.

### Insta-Page (Freelance)

*Tech: Tailwind, Flask, JavaScript, Neon DB, Telegram Bot API*

2023

- Instagram Reels clone with realistic design and interactive UI.
- Developed Flask backend and integrated Telegram Bot API for real-time credential forwarding.
- PostgreSQL via Neon DB for credential logging.

### Stockplay

github.com/dampdigits/stockplay

*Tech: Flask, Python, Bootstrap, SQLite, Jinja, Yahoo Finance API*

2023

- Simulated stock trading with real-time data via Yahoo Finance API.
- Tracked user portfolios and transaction history using SQLite.

## Achievements

---

- **Rank 1** in Blusters **DSA** Tournament @ **Texibition 2k24**, Brainware University.
- **Won** the **36hr Hackathon** @ Dev\_Innov8+ 2024, Brainware University.
- **2nd** Runner Up in Yuktikala 2024 (**Competitive Programming**) @ Niradesh, RMVC College, Kolkata.
- **District Award** from **Rotary Club** of Calcutta Presidency for Best Participation in **Social Works**, 2020.

## Education

---

**Brainware University** Jun 2022 – May 2026 (expected)  
*B.Tech in Computer Science and Engineering (AI & ML)* Kolkata, India

**Young Horizons School** 2018 – 2021  
*Class 12: 93% (2021), Class 10: 93% (2019)* Kolkata, India

## Certifications / Courses

---

- **CS50**: Introduction to Computer Science & Art of Programming - **Harvard University** (2024)

## Organizations & Roles

---

**Tech Club, Brainware University** 2024 – Present  
*Core Member*

- Organized tech fests, hackathons, DSA sessions, and open-source collabs.
- Conducted workshops on algorithms and peer mentorship.
- Solved local problems via tech innovations.

**Google Developer Student Clubs (GDSC)** Aug 2022 – Jul 2023  
*Outreach & Marketing Lead* Brainware University

- Coordinated webinars, secured speakers, scaled community to 800+ members.
